

Jackson County School District

Raising the Standard

To: Dr. Amacker
From: Susan Benson
Date: April 15, 2013
Regarding: Jackson County Technology Center (JCTC)

I am requesting an approval to change in the classes offered at the Jackson County Technology Center (JCTC) for the 2013-2014 school year and beyond.

- ✓ Please consider adding the Teacher Academy as an offering at the JCTC in the place of the former air conditioning program.

Teacher Academy will be reimbursed through CTE at 49% of MAEP salary. District will have to pick up 51% of salary, plus benefits. National Board Certification is required by the teacher (\$6,000) and is currently paid by the state. An example of the cost of the program is as follows:

This is an example with 15 years of experience.

A teacher with 15 years of experience and a certification of AA on an 195 day contract
Contracted Salary from District: 50,351
MAEP Pay Scale would be approximately \$46,070
49% vocational reimbursement would be \$22,575
The District would pay the difference of \$27,776 + benefits

These changes will provide better services to the students in the Jackson County School District. Thank you in advance for your consideration.
